Dr. M. M. Carrick, a sanitary expert,

States,"
Speaking before the section on public health of the Southern Medical Association yesterday, on the "Duties and Status of a Health Officer," Dr. Carrick said, in part:
"That public health administration is now looked upon as a profession of the highest state."

"CLEANEST DAIRIES OF

Only 4.1-inch. Of these she had ten. Her speed of 24.5 knots was her greatest asset, as she was able to run down merchant ships with ease, and then escape from larger but slower vessels that pursued her. British, Russian, French and Japanese warships in the East, had been attempting for weeks to put an end to her career.

It has been more or less of a mystery to navel men how the Emden has knots, as against the Sydney's 24.7, the former probably was foul, and her engines badly racked from her three engines badly racked from her three contents of almost constant cruising in Southern waters, chasing and being chased, and with no port for refitting or repairs.

The Keeling or Cocos Islands are a krup in the Indian Ocean belonging to
